NEXUS AI — MARKET IMPACT INTELLIGENCE

OSINT event classification and market impact forecasting

INTELLIGENCE GRID • MARKET REGIME • CAPTURED FROM THE RUNNING APPLICATION

THE SYSTEM

Nexus AI — Market Impact Intelligence

An OSINT monitoring grid that ingests open-source event feeds, classifies them, and forecasts market impact across macro, crypto and foreign exchange. Built as a Django event engine behind a Next.js intelligence dashboard with live regime read-outs and alerting.

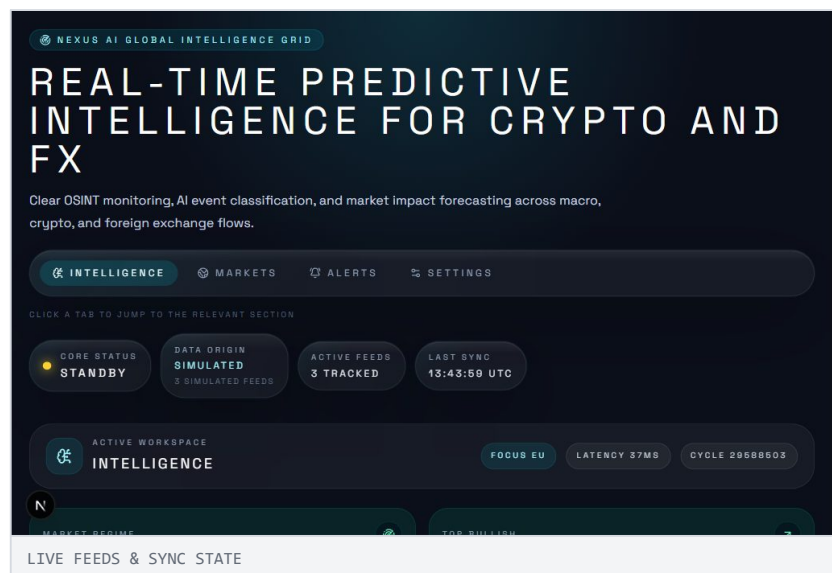

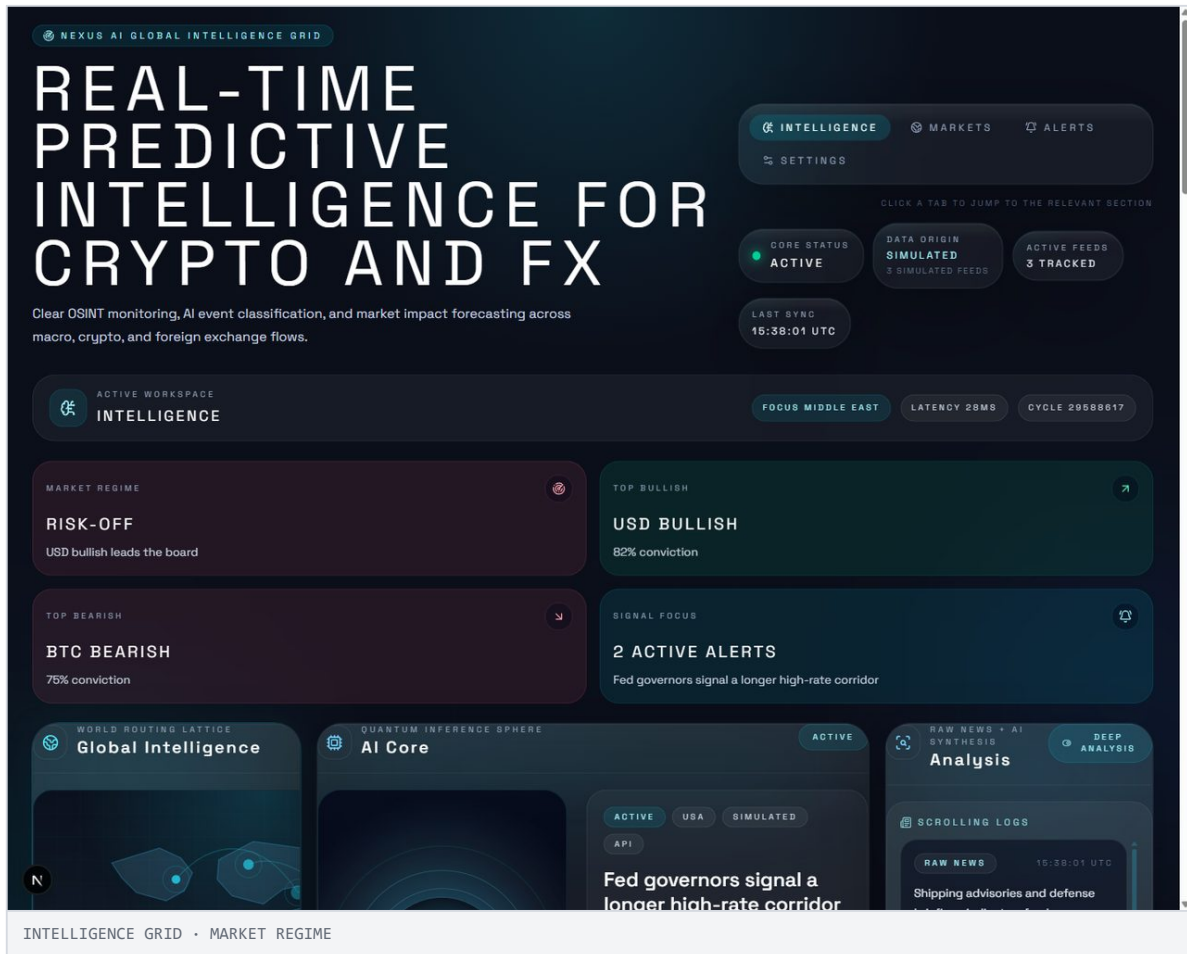

PIPELINE	Feed ingest ☐ event engine ☐ classifier ☐ analytics ☐ impact forecast
SURFACE	Intelligence, Markets, Alerts and Settings workspaces
STATUS	In development
FIELD	AI & platforms

BUILT WITH

Django · Next.js · Recharts · Tailwind · Python classifiers

WORK WITH ME

Applied AI & automation

I build line-of-business software for organisations that cannot afford it to be wrong. This project is one of 32 systems I have delivered; four are running in daily production.

- Self-hosted AI platforms so your data never leaves your own infrastructure.
- Retrieval pipelines (RAG) over your documents with cited, checkable answers.
- Speech-to-text, live translation and conversation analysis.
- Multi-agent tooling and workflow automation around existing systems.

HOW I WORK

- I work close to the people who will use the system, not from a spec document alone.
- You get the source, the database schema, and a local setup that actually runs.
- Clear milestones, and a demo build you can click through at each one.
