THE SYSTEM

Vendora — POS, Inventory & Accounts

A retail platform that refuses to separate the till from the books. Barcode checkout, purchase orders, expenses and party ledgers all post into one double-entry accounting core, so the trial balance and profit & loss are generated from actual sales rather than re-keyed at month end. GST is applied automatically from the product category matrix and locked from settings so cashiers cannot drift the tax.

BUILT FOR	Grocery, pharmacy, electronics and garment retailers
ACCOUNTING	Trial balance · profit & loss · balance sheet · account ledgers · party statements
OPERATIONS	POS checkout, stock control, purchases, expenses, multi-user roles, backups
STATUS	Pilot / SaaS
FIELD	Retail & hospitality

BUILT WITH

Django · Python · SQLite / PostgreSQL · Thermal receipts · Barcode scanning · Email verification

Trial Balance

Internal control report. Debit total and credit total must match exactly.

Total Debit
Rs 381,035.00

Total Credit
Rs 381,035.00

Difference
Rs 0.00

Use this as an internal control report. If totals do not match, some posting logic is broken.

ACCOUNT	TYPE	DEBIT	CREDIT
Accounts Receivable	Asset	Rs 95,000.00	Rs 55,000.00
Bank	Asset	Rs 133.00	Rs 40,000.00
Cash	Asset	Rs 55,179.00	Rs 55,246.00
Inventory	Asset	Rs 90,238.00	Rs 90,238.00
Cost of Goods Sold	Expense	Rs 90,238.00	Rs 0.00
Rent Expense	Expense	Rs 5,000.00	Rs 0.00
Sales	Income	Rs 0.00	Rs 95,311.40
Accounts Payable	Liability	Rs 40,239.00	Rs 40,239.00
Expense Payable	Liability	Rs 5,000.00	Rs 5,000.00
Sales Tax Payable	Liability	Rs 0.00	Rs 0.00

PRODUCT CATALOGUE & STOCK

WORK WITH ME

Retail, POS & inventory software

I build line-of-business software for organisations that cannot afford it to be wrong. This project is one of 32 systems I have delivered; four are running in daily production.

- Point-of-sale with barcode scanning, thermal receipts and offline-tolerant checkout.
- Inventory, purchase orders, suppliers, expiry alerts and low-stock reporting.
- Double-entry accounting: trial balance, profit & loss, ledgers and party statements.
- Tax handling wired to product categories so staff cannot drift the rate.

HOW I WORK

- I work close to the people who will use the system, not from a spec document alone.
- You get the source, the database schema, and a local setup that actually runs.
- Clear milestones, and a demo build you can click through at each one.
